

6. 20. (New) The connector arrangement of claim 17, wherein the rear terminals include  
insulation displacement connectors.

7. 21. (New) The connector arrangement of claim 17, further comprising a housing  
holding the circuit board, the housing defining a plug port for receipt of a plug of a  
telecommunications cable.

Remarks

Claims 15-21 are pending in the present application.

The figure numbers for Fig. 18 and Fig. 19 in the formal drawings are now changed to  
Fig. 19 and Fig. 18. The support can be found in the original informal drawings.

Consideration of the application and a favorable response are respectfully requested.

If a telephone conference would be helpful in resolving any remaining issues, please  
contact the below signed at 612-336-4733.

Respectfully submitted,
